INSTRUMENTATION GROUP

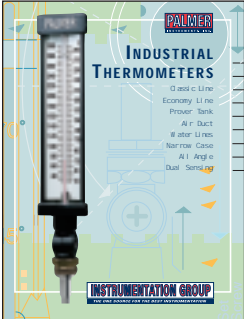

THE ONE SOURCE FOR THE BEST INSTRUMENTATION

Wahl Temp-Plate® Irreversible Temperature Recording Labels

Single, three, four, six, and eight temperature position labels
Full range of °F and °C ranges
Selection of sizes and shapes
NEW "Temp-Spy®" Economy-Line
NIST traceable accuracy

No. PW1145

No. PW1150

Palmer Industrial Thermometers

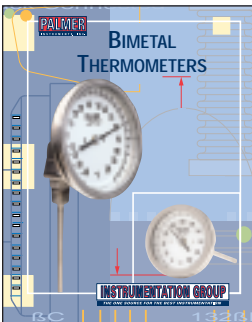

NEW Economy Line, plastic or aluminum cases
NEW "Sky Blue" environmentally friendly models
Classic, nickel-plated brass case models
All case types, stem lengths and ranges
Stock models and custom configurations

Lufft Data Measuring, Recording & Transmission Instruments

Temperature, humidity, barometric pressure, wind speed, radiation, rainfall, soil temperature, ice and snow, surface moisture
Compact, portable single station or complete network
Remote reading weather stations; data transmission via RS-232, telephone, or radio transmission

No. L1102

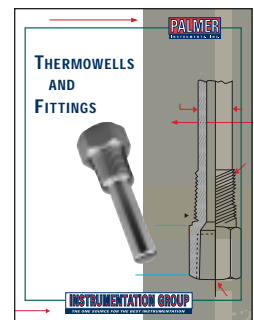

No. PW1146

Palmer Bimetal Dial Thermometers

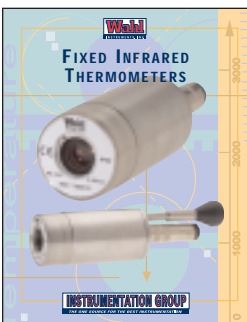

NEW All Pro™ economy line
Classic All Star™ series for industry-leading performance & accuracy
Slip-Fit series for industrial style thermometer replacement
Unique, cost saving Replaceable Element models
Sanitary models, no thermowell needed
Universal Mount series, for tight installations

Palmer Thermowells and Fittings

Complete line of thermowell designs and materials for instrument installation
Threaded and welding types
Regular and lagging extension models
Brass, stainless steel, monel, Hastelloy, and other materials
Flanged and Van Stone types

No. 1100

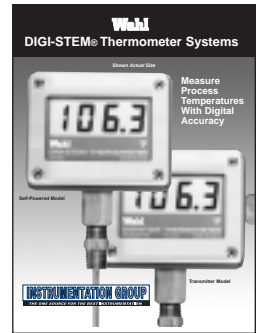

No. PW1144

Wahl Non-Contact Infrared Sensors for Fixed Installation

Fast response infrared sensors measure over a wide temperature range
Applications for confined spaces, moving product lines, production machines, high or low temperatures
Stainless steel housings are compact, rugged, and easy to install
Options for through-the-lens or laser sighting, adjustable emissivity, and bus control of all parameters

Wahl Digi-Stem® Thermometer and Transmitter Systems

Digital process thermometers with large, easy to read, 1" LCD display
3A standard 09-09 compliance, PMO approved, intrinsically safe
Options for 4 -20mA transmitters
Remote sensor systems for general purpose and specific applications

No. PW1143

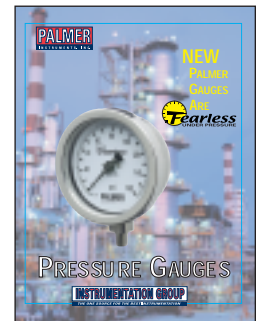

No. PW1170

Wahl Heat Spy® Non-Contact Infrared Thermometers

Models for general purpose to specialized applications
Completely portable, battery-powered operation
NEW Professional series with computer interface options
Enclosed optical, telescopic, and laser sighting options
NEW compact model with laser sighting system and advanced features

Palmer Pressure Gauges

NEW Fearless Under Pressure gauges for filled gauge performance from a dry gauge
Differential pressure models with dual input
Full range of brass stainless and plastic case models
Sanitary, test, transmitter, and electrical contact gauges
Snubbers, syphons, and needle valves

No. PW1135

No. I1101

Italcopee Temperature Probe and Connector Systems

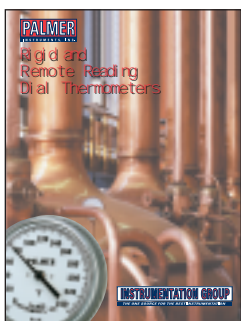

Thermocouple probes, J & K, standard & water-tight connections
NEW Temperature transmitter with M12 connector and 4-20 mA output
Special purpose full immersion RTD probes
NTC thermistor probes available
Installation, connection, and cable extension accessories

Wahl Heat Prober® Meter and Probe Systems

Superior accuracy 392 HP platinum RTD meters and probes
Full line of thermocouple & RTD probes for general purpose & specialized applications
RTD, Thermocouple, and NTC thermistor meters for every application
Precision field calibrator for thermocouple or RTD meters
Heavy duty handle systems with probe interchangeability

No. PW1155

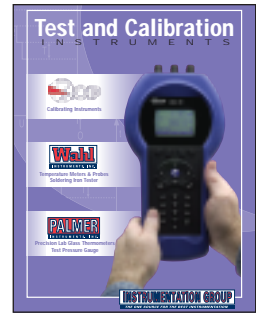

No. PW1144

Palmer Rigid and Remote Reading Dial Thermometers

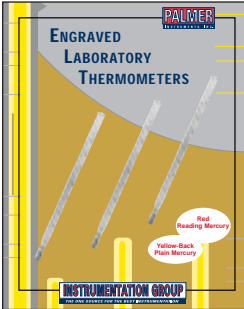

3-1/2" and 5" dials
Complete line of remote bulbs and armored flexible thermal systems
Direct drive liquid filled models
Rugged design for accuracy and reliability
Mercury or liquid actuation option

AOIP Test and Calibration Instruments

- NEW** AOIP multifunction calibrator/tester for portable or bench use
- Wahl Soldering iron tester
- AOIP superior accuracy calibrator/tester
- AOIP portable "pocket" temperature and process calibrator
- Wahl RTD meter/probe high performance systems
- Palmer test pressure gauges and laboratory thermometers

No. PW1120

No. PW1195

Palmer Laboratory Thermometers

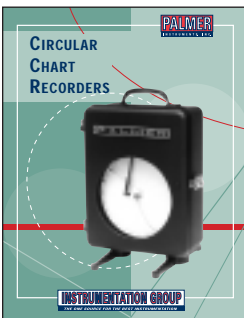

- Glass laboratory and precision test thermometers
- Total and partial immersion for ASTM standard applications
- Full armor and perforated armor case options
- Pocket, skewer and high range thermometers
- Cup case, handle-top thermometers and wet bulb/dry bulb hygrometers

Quality Instruments for HVAC Applications

- Wahl Heat Spy® non-contact infrared thermometers
- Wahl hand-held thermocouple meters with interchangeable probes
- NEW** Palmer economy line industrial thermometers with environmentally friendly "Sky Blue" option
- Palmer pressure gauges, utility, and contractor models, dry or filled
- Palmer slip-fit bimetal dial thermometers

No. PW1190

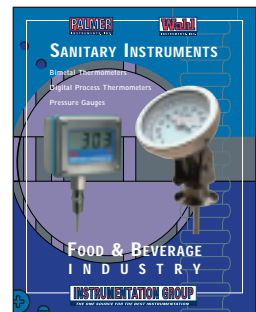

No. PW1196

Palmer Circular Chart Recorders

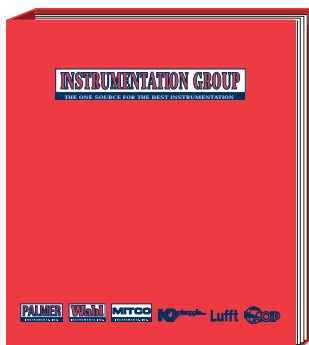

- Full scallop recorders with clock driven chart
- Pressure/volume recorders with meter driven chart
- Pressure and temperature recorders in 8" or 12" size
- Full line of pressure or temperature elements, replacement parts, charts, and temperature bulbs
- PC-11 quartz multi-speed chart drive, intrinsically safe

Sanitary Instruments for the Food & Beverage Industry

- Wahl Digi-Stem® sanitary digital process thermometers with FDA PMO compliance
- Palmer sanitary bimetal dial thermometers with 3A standard 09-09 compliance, no thermowells required
- Palmer sanitary pressure gauges, meets 3A standard 37-01, USDA, and FDA regulations

No. PW1152

No. PW1000

Instrumentation Group Complete Catalog Set

- Sturdy 3-ring binder with all Instrumentation Group Catalogs
- Indexed by category

INSTRUMENTATION GROUP

THE ONE SOURCE FOR THE BEST INSTRUMENTATION

THE INSTRUMENTATION GROUP ♦ 6 MANUFACTURERS...1 SOURCE

One Source® enabling you to contact six manufacturers directly at one time. **One Source®** close to home when you need hands on assistance from our Authorized Distributor. **One Source®** dedicated to offering you the best selection, application solutions, technical support, and customer service. **One Source®** with the experience, expertise and tradition in producing quality products to meet and exceed your demands.

Contact the Instrumentation Group and give us the opportunity to demonstrate the difference **One Source®** can bring to your business.
